SECTION 3: RESEARCH DESCRIPTION

Please read each question carefully before answering. Respond to all questions and avoid repeating the same information.

Note: The online application system does not recognize typical formatting including indentations (tabs), bold, italicized, or underlined fonts, and bullets. Please use hyphens for bullet points and separate paragraphs by a line break (space).

 3.1 Provide an abstract for the proposed research project. Abstracts should introduce the research problem, explain how the proposed research project will address that problem, and describe the expected results in the form of outputs and outcomes.

Maximum 400 words.

 3.2 List the general and specific research objectives.

Maximum 250 words.

 3.3 What are the short-, medium- and long-term urban climate threats facing the geographic scope of the project? How do the threats impact the affected population? Specify the number of people and the size of the area affected.

Maximum 750 words.

3.4 What are the proposed short-, medium-, and long-term adaptation solutions to the climate threats defined above, with reference to the research themes specified in the Call Document (e.g. governance, incentives, development or application of technologies, social enterprise, etc.)? How are the proposed solutions innovative? Describe how gender and equity dynamics are incorporated in the adaptation solutions.

Maximum 1500 words.

3.5 Provide an overview of the research methodology to be implemented by the interdisciplinary team (e.g. cost-benefit analysis, quantitative and qualitative assessments, or impact and evaluation studies that will be conducted through the proposed research). Describe how gender and equity dynamics are incorporated.

Maximum 1500 words.

3.6 How are community, public, and private sector partners engaged in the research?

Note: Letters of commitment from all named Partners Organizations must be submitted with this application.

Maximum 750 words.

3.7 What is the sustainability plan for the proposed adaptation solutions beyond the duration of the project?

Maximum 250 words.

3.8 How will the proposed research inform policy and at what scale?

Maximum 500 words.

3.9 Describe any capacity building and training aspects of the proposed research project (including researchers, partners, government officers, and community groups). How will capacity be retained throughout the course of the project and beyond?

Maximum 750 words.

 3.10 Provide an overview of the project workplan that links the methodology to milestones, deliverables, and important events.

Note: If you prefer, you may prepare the project workplan in Excel, Word, or .pdf format and upload it to this application prior to submission.

Maximum 500 words.

 3.11 Provide an overview of the monitoring and evaluation framework, describing how the project will (a) monitor progress towards milestones and (b) evaluate the impact of the research, including the effectiveness of the partnerships and sustainability of the solutions.

Maximum 500 words.

 3.12 Describe the knowledge management and communications plan for the project. How will communications and outreach activities be targeted to different audiences? What are the planned publications and communication products (i.e. videos, manuals, books, etc.)?

Maximum 750 words.

 3.13 List all references cited in this application.

I declare that all information I have provided in this application form is true.

Yes
