Additional Terms and Conditions of the Travel Grant

1. **Transportation**

The IDRC [Corporate Travel policy](#) prescribes participants to travel economy class by the most direct and economical routing (taking advantage where possible of “excursion” fares). The participant is free to reroute or upgrade at his or her own expense.

The policy also states that all air travel is to be prepaid. Participants may obtain their air/rail tickets by contacting the Centre’s designated travel agency which will invoice the Centre directly.

*Travelers destined to or transiting through the United States of America must provide their passport number, nationality, date of birth and gender. The name on the airline booking file must exactly match the name on the passport. Be ready to provide this information to the travel agent.*

Participants will receive their tickets either from a nearby airline office (via a prepaid ticket advice) or via electronic ticketing.

Under no circumstances is the Centre willing to entertain the participant making his or her own reservations and invoicing the Centre. The Centre may consider combining the participant business travel with IDRC travel. In these cases, the participant must contact the Centre administrative representative at the number shown on the first page of this notification to prepay to the Centre his or her share of the itinerary unrelated to this grant. The IDRC Corporate Travel policy sets out the different options that can be considered when making these arrangements - refer to sub-section 14.4(b) of the policy.

For further information or clarifications, contact the Centre administrative representative identified on the first section of this notification.

2. **Allowances and reimbursable expenses**

All transit days are included in the calculation on the first page (or in the confirmation notice you will receive later, if the itinerary is not known at the time of this Travel Grant Notification) and no claim will be entertained for unscheduled stopovers and delays, unless the duration of the trip is extended by more than 36 hours.

3. **Payment**

To guarantee prompt receipt of payments, please ensure the accuracy of your mailing address in the case of cheques or of your banking information in the case of bank transfer. The Centre shall not be liable for any expenses or travel delays incurred as a result of inaccurate information or of delays in submitting the banking and traveler profile forms.
4. **Unused funds**

If for any reason you do not undertake this travel or need to shorten your stay, air tickets or unused funds advanced to you must be returned to the Centre. Money owed to the Centre must be reimbursed in all cases and as early as possible.

5. **National Legislation**

During the travel covered under this grant, the participant shall be responsible for complying with all legislation of the country (countries) in which he or she must work (including laws pertaining to immigration, taxation, customs, employment and foreign exchange control).

It is the individual’s responsibility to comply with the visa regulations of any country visited or in transit.

The allowances paid under this grant do not include provision for complying with national legislation of the countries the participant may visit (including Canada). The Centre will not entertain any claim for work permits or any other costs relating to compliance with the national legislation of any country in the world.

6. **Insurance**

During the period of your Centre-supported travel, you may be covered under the following Centre insurance policies:

- Basic Accidental Death and Dismemberment (including Permanent Total Disability Indemnity) up to 30,000 CAD

- Emergency Out of Country Hospital/Medical Coverage up to a lifetime maximum of 1,000,000 CAD while out of your country of residence.

The above applies only to persons under the age of 70. Other exclusions and limitations may apply and coverage is subject to the terms and conditions of the insurance policy, which may be subject to change from time-to-time.

*Travelers can request a copy of the document from the Centre administrative representative. It is your ultimate responsibility to review all coverage details and exclusions applicable to you prior to each trip. Failure to consult the document shall not constitute grounds for a claim.*

*It is also your responsibility to obtain any other insurance (e.g. travel and additional medical coverage).*

Should you extend your travel, either prior to or after the event, for personal or other business reasons, the Centre’s insurance plan will only cover your return travel, from the final Centre destination, but not the additional days.
Medical emergency: In case of medical emergency, ensure the administrative representative is informed of your emergency within 48 hours of the time of the accident (or as soon as possible if you are incapacitated). This is an insurance requirement. The administrative representative will provide you with direct contact to the Centre’s insurance provider. Once you have spoken with the Centre’s insurance provider, you may proceed to obtain medical assistance. In situations where you pay the healthcare costs yourself, keep the receipts together with appropriate medical documentation that describe your condition or the treatment received. As soon as you can, but not more than 20 days after you return home, contact the Centre’s administrative representative who will provide you with the contact of our insurance provider for processing of your medical claim.

7. Personal Safety and Health

You have the exclusive responsibility for maintaining your personal safety and good health during the period of this grant. The Centre strongly suggests that you consult the diplomatic and consular authorities of the country of your nationality with a view to heed the travel recommendations applicable in the countries to be visited under this grant. It is your responsibility to find out and seek advice from any other reliable sources. Should travel to the destinations of this grant not be advised by the authorities, you must immediately upon making that determination advise the Centre’s administrative representative who will, at his or her option, either terminate the agreement, or with your accord, defer performance until such time as the restrictions on travel are removed, or propose an alternative work plan for your accord.

The Centre also strongly suggests you seek guidance from qualified health personnel concerning potential health risks in the areas to be visited. In preparing for a trip to a developing country, you should receive all recommended immunizations and take malaria prophylaxis when travelling to an area where malaria is endemic. The Centre especially recommends that a traveler’s clinic be consulted if possible.

Traveler’s health information is available in the public domain, including from World Wide Web sites such as http://www.tripprep.com/ or those maintained by the World Health Organization, Health Canada and the United States Centers for Disease Control.
